With that fateful fall, she discovered a family cemetery that had disappeared from living memory. Eventually, twenty individuals were found, and Little Maggie made the local paper!

Maggie graduated from Valdosta State University (Valdosta, Ga) with a BA in General Studies with an emphasis in History and Humanities. She went on to earn her Master of Art in Secondary Social Studies. She taught Texas History, American History, World History, and Art for many years and now works for the State of Texas.

He came to Texas as soon as he could get here! He holds a Bachelor of Science degree in Computer Science from Hawaii Pacific University and currently works in the field of Cybersecurity.

His love of computers has served him well throughout his life. He built his first computer when he was 16 and as a young man, his grandfather, Henry, shared his passion for the family genealogy. Walter was hooked! He has since catalogued and digitized thousands of family photos over the years. He serves as the Arlington Stake Technology Specialist and volunteers monthly at the Family History Center.
